

## PROCESS TECHNICIAN (ALL SHIFTS)

The ADDUXI group is an automotive supplier, composed of more than 300 people spread over 3 continents. We are a family business established in 1996 and we specialize in the transformation of plastics. It is positioned on the development and manufacturing of high precision injection molding parts, for various markets, with a predominance on the automotive sector. We are a dynamic and growing company, located in Rochester Hills, MI.

### Your missions:

- Perform start-ups and material set-ups as required.
- Report concerns to Manufacturing Engineer and provide follow-up as needed.
- Perform the required inspection and SPC of all production at mold start-ups and material changes.
- Perform inspections on last shot prior to mold change over.
- Audit variations to mold set-ups (air flow, oil leaks, hose connections), process-actual to process sheet, and process alarms.
- Work with Quality Technician to initiate containment actions including identification of a “clean point” and coordinating the sorting of any nonconforming products.
- Participate and coordinate real time root cause analysis in conjunction with other team members.
- Initiate tool work orders and obtain samples after verification of root cause analysis.
- Responsible of 5S
- Clean the hoppers and dryers on molding machines.
- Other duties may be assigned as needed.

### Shifts available:

- 1st – 7am to 3pm
- 2nd – 3pm to 11pm
- 3rd – 11pm to 7am

### Your profile:

- High School Diploma or equivalent
- 7+ years of experience in injection molding with a strong understanding of parameters, materials, and process controls.
- 2+ years of experience in automotive
- Knowledge of thermoplastic injection, automation, pneumatics, mechanics, hydraulics and SPC metrology
- Able to take initiative and troubleshoot complex situations
- Proven ability to manage multiple priorities
- Team player

**Type of contract:** Salary, full-time
